

## TORNADOR-Gun - cleaning wonder for applications in the professional interior and exterior car wash

The new cleaning wonder the so called TORNADOR-gun ensures the most professional and efficient interior and exterior cleaning of all kinds of dirt in the car wash sector.

From now on strenuous manual work together with different cleaning agents are not necessary anymore as the TORNADOR-gun removes chocolate on seats, dirt in ventilation ducts and also brake dust on wheel rims by its technically mature technology.

Thereby, it generates the cleaning efficiency of a rotary cutter - only a permanent compressed air connection for minimum 8 bar and a suitable cleaning agent are required and necessary. By the needed low water volume and the effect in depth of the dirt a speedy drying of the surfaces is guaranteed!

Save your TORNADOR-gun today and become acquainted with its convincing performance!

R+M Nr.	working pressure	air consumption
106 996 650	min. 8 bar	200 l/min
